TOSCANINI

## PERSONAL STYLE

---

50 years have gone by since the launch of our first valet. Today, we are glad to propose it again as unique accessory of elegance and functionality thanks to its design inspired by the neat and timeless lines of Frank Lloyd Wright and Le Corbusier's architectures. To produce it and meet our clients' needs and desires, we resorted to the very best of our know-how and artisan expertise. The project has led to a small and fascinating cabinet-making masterpiece whose perfect proportions are conceived to take care of your clothes and complete your closet or bedroom.

Matching style and function, transforming everyday's objects into design pieces, perfect to use and beautiful to see: this is what we aim at when we project the products of our Toscanini Interior collection.

## A MATTER OF SHAPE

---

Led by the passion and the affection for his 50 years long career as cabinet maker, Giordano Viganò has created the concept of the new valet turning to his unique art and to the aesthetic applied to objects provided with a soul. He shaped a living material such as wood and matched it perfectly with other noble materials: metal and leather while taking care of the tiniest detail. From the first draft till the project fine-tuning, Giordano Viganò's creative experience mastered the entire process leading from a simple idea to reality. The measure and harmony of the Edward valet are the proof of a craftsmanship feeding itself with beauty as real luxury does.

## HANDMADE ONE BY ONE

---

The Edward valet is provided with a wooden made by measure hanger coated in soft stitched leather and with a pocket emptier. On the back of the valet there is a leather coated trouser's bar. On the revolving base there are two chromed metal details where shoes can be put. The valet essential lines are made more precious by the choice of its materials: nicely veined American walnut wood, soft leather with either contrasting or ton sur ton stitches and chrome-plated metal.

The valets, that with our bespoke hangers, fabric garment covers, shoe shapers and other accessories belong to the Toscanini Interior collection, are made on order only and are created entirely by hand one by one following a series of meticulous operations.

## AN ITALIAN STORY

---

Toscanini has been working wood and other noble materials since the 20s, transforming them into hangers and other products conceived to hang, display and preserve clothes and accessories.

Four generations of a family convinced that the real value of Made in Italy products is much more than a simple label, it is an embedded declaration of quality, craftsmanship and elegance.

Toscanini produces only in Valsesia, Italy, where it may find the essential knowledge to create products that really meet highly demanding clients and markets. Italy is the final guarantee of being able of doing things as they should be: well.
